RE: There two sild not one.

BD scanned

I write to ask if my 42 U.S.C. 1983 is also denied? I don't want these people getting away, They have neglected me and let me be in pain and suffering, I will show the court & the jury that they have not done what they are saying they did, they have lie to the court, if they was helping me, I would of not sue them for medical neglect and for pain & suffering. I want all that I ask for in the Amend civil complaint.

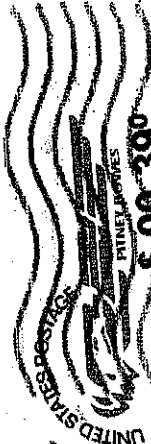

I do have a right to a hearing with a jury let them hear the truth. I can't write or spell to said all they done but Please help me not to let these people get away with this, they have already hurt other, Please help stop them from doing it again, I am asking for help, I wrote to family, News for help also, I need help I am sick but can't get none. Yes my Eighth has been voided with not given me the treatment I need to stay alive, that's cruel and unusual punishment, I will not rest into these people stop hurting and lying to get away and kill other because of not helping us. a Year now and still no treatment for my liver.

I want to said How I am lying Just don't believe them, there is two sild not one that I will show in court. Sincerely Yours David DeJesus Sr
